### **BIOFUSION 5% VITAMIN C SERUM 30ml**

WITH NANODISCS™ TECHNOLOGY WITH VITAMIN C. FOR MATURE SKIN 40+

SECOND SKIN serum. Invention. It melts into the skin in the BIOFUSION process and intensely regenerates the skin. A sensational product for sensitive, dry to normal skin susceptible to irritation and discoloration. It combats all the identified signs of skin ageing and deterioration. Dark spots are visibly lightened and wrinkles are reduced.

The above-average properties of the serum were achieved thanks to NANODISCS™, which stimulate the skin penetration of vitamin C by 270% \* and peptides as well as BIOFUSION, which guarantees biological regeneration of the epidermis.

\* instrumental tests

#### **Directions for use:**

Apply serum to cleansed skin. Squeeze the content of the pipette onto the face and neck and spread thinly. Administer a quick self facial massage until completely absorbed (instructions available at

[www.yonelle.com](http://www.yonelle.com)). Next, apply your skin care cream. Immediately your skin will feel delightfully smooth. This is a YONELLE trade mark.
