### **BIOFUSION REPAIR 3C CREAM 55ml**

WITH NANODISCS™ TECHNOLOGY WITH VITAMIN C. FOR MATURE SKIN 40+

SECOND SKIN cream. Invention. It melts into the skin in the BIOFUSION process. Ideal for day and night use, for powerful regeneration and rejuvenation, and for improving the appearance of sensitive, dry to normal skin. Stimulates its quality and structure. Spectacularly improves firmness of the skin and reduces wrinkles. Visibly reduces signs of dryness, discomfort and proneness to irritation. The skin gains a beautiful tone and new life. It becomes delightfully smooth and velvety soft.

The above-average properties of the cream were achieved thanks to NANODISCS™, which stimulate the skin penetration of vitamin C by 270% \* and peptides as well as BIOFUSION, which guarantees biological regeneration of the epidermis and delays the skin ageing process.

\* instrumental tests

#### **Directions for use:**

Apply cream with a spatula onto fingertips. Rub between fingers to make it warmer and spread thinly on the face and neck. Administer a quick self facial massage (instructions available at [www.yonelle.com](http://www.yonelle.com)). Meanwhile, the skin absorbs the cream's precious ingredients. Your skin will feel delightfully smooth already after the first application of the cream. This is a YONELLE trade mark.
