Manufacturer	Dr Irena Eris
Price	229.00 PLN
Cena netto	186.18 PLN

Skin Matrix Renewal Cream containing an Oligo Transfer™ complex, stimulates the skin regeneration by restoring healthy communication between the nerve endings and the skin cells. With advanced stimulation, Oligo Transfer strengthens the skin support elements to form a coherent cell microarray. The carefully selected active ingredients, contained in the additional HyaluSoft Age Complex, activate multi-level restructuring of the skin. The skin becomes more dense and highly nourished, and deep wrinkles are filled. The cream provides a precise anti-wrinkle effect and face oval modeling and promotes the repair of damage caused by neuroageing. The cream is recommended for mature, influenced by hormonal changes skin, that is prone to formation of wrinkles, discoloration and loss of suppleness. For optimal results, it is recommended to use with NEURO FILLER day face cream and eye cream.

### Product features:

capacity:	50 ml
age:	40-45, 45-50, 50-55, 55-60, over 60 years, over 70 years
care area:	face all type
